

REF: Docket Number 02-278

To Whom It May Concern:

Regarding the challenge to Indiana's Telephone Privacy Law, please do not allow the exemption sought by the CBA regarding "established business relationships". As one who sought to have all my phone numbers added to the "Indiana Do Not Call List", I don't care to be called by any banks, even if I do business with one or all of the banks seeking this exemption. If they have any business to conduct with me, they can correspond with me by mail. Before the "Do Not Call List" was initiated, I received 5 to 6 calls per day, even up to 9 to 10 P.M. Since then, I'm lucky to get 1 per week and maybe then they are only wrong numbers. I love it. Repeating, please don't allow this exemption or any exemption sought by anyone other than what is now allowed by Indiana law.

Thanking you in advance,
Howard Koehl
